***Eurofins Lancaster Laboratories
expands Northeast footprint; opens office in
Cambridge, Mass.***

CAMBRIDGE, Mass. —Eurofins Lancaster Laboratories, a global leader in bio/pharmaceutical laboratory services, announced today the opening of its Northeast office, located in the Cambridge Innovation Center (CIC) in Cambridge, Massachusetts.

“The strength of Massachusetts’ Life Sciences cluster continues to attract leaders in biopharmaceutical development,” said Governor Charlie Baker. “The talent and resources available here are unparalleled, and we are committed to supporting the success of companies like Eurofins Lancaster Laboratories.”

“As we forge strategic partnerships in supporting our clients’ scientific advancements and deliver innovative and timely solutions to the BioPharma industry, joining the Cambridge Innovation Center enhances our Northeast presence and officially places us at the hub of a prime biotech market,” said Timothy S. Oostdyk, Ph.D., Chairman, Eurofins Lancaster Laboratories; Group Sr. Vice President, Eurofins BioPharma Product Testing. “We are pleased to expand our sites into Massachusetts and serve as a valuable resource to our existing and future clients there, as well as make a positive impact on the Cambridge community.”

As a global leader in BioPharmaceutical product testing to the world's largest pharmaceutical and biopharmaceutical companies, Eurofins Lancaster Laboratories brings the most comprehensive, compliant and collaborative laboratory testing services to the Northeast market. Backed by a 55-year successful track record, Eurofins Lancaster Laboratories offers a complete range of CMC Testing Services to support virtual and large bio/pharmaceutical companies and CMOs worldwide, including testing of all starting materials, process intermediates, bulk drug, finished product, and final packaging components through its broad technical expertise in Biochemistry, Molecular & Cell Biology, Virology, Chemistry and Microbiology.

"We are excited to welcome Eurofins Lancaster Laboratories to the Massachusetts Life Sciences ecosystem," said Travis McCreedy President & CEO of the Massachusetts Life Sciences Center. "They are joining a strong and growing cluster of contract laboratory service providers in Massachusetts, including other global leaders in this sector that are playing a central role in the development of new treatments, therapies and cures for patients. We look forward to being good partners with Eurofins as they put down roots and grow in the Commonwealth."

"MassBio is thrilled to welcome Eurofins Lancaster Laboratories to the Massachusetts life sciences supercluster," said Robert K. Coughlin, President & CEO of MassBio. "We know that Eurofins will bring value and benefit as they connect with new partners in our robust biopharma community, which increasingly relies on the important work of contract service providers."

About Eurofins Lancaster Laboratories, Inc.

Founded in 1961, global leader Eurofins Lancaster Laboratories provides comprehensive bio/pharmaceutical laboratory services for all stages of the drug development process and supports all functional areas of bio/pharmaceutical manufacturing, including method development, microbiology, process validation and quality control.

As a member of Eurofins Scientific's BioPharma Product Testing Group—the largest network of harmonized bio/pharmaceutical GMP product testing laboratories worldwide—Eurofins Lancaster Laboratories partners with world's largest pharmaceutical and biopharmaceutical companies to transform their science into outstanding solutions. With a global capacity of more than 625,000 square feet, its network of GMP laboratories operates under the same strict quality procedures, LIMS, centralized billing system and online data access portal, LabAccess.comSM, across 22 locations worldwide.

In addition to these laboratory locations, Eurofins Lancaster Laboratories has teams of scientists placed at more than 60 client facilities worldwide through its Professional Scientific Services insourcing program. www.EurofinsLancasterLabs.com

About the Massachusetts Life Sciences Center

The Massachusetts Life Sciences Center (MLSC) is an investment agency that supports life sciences innovation, research, development and commercialization. The MLSC is charged with implementing a \$1-billion, state-funded investment initiative. These investments create jobs and support advances that improve health and well-being. The MLSC offers the nation's most comprehensive set of incentives and collaborative programs targeted to the life sciences ecosystem. These programs propel the growth that has made Massachusetts the global leader in life sciences. The MLSC creates new models for collaboration and partners with organizations, both public and private, around the world to promote innovation in the life sciences.
