2026-27 Data Science Internship Program

*This application is for internships taking place during the period **May 1, 2026 - April 30, 2027.***

This program increases the availability of advanced analytics/data science talent in life sciences by creates internship opportunities for candidates skilled in computational biology, biostatistics, physics, biology, chemistry, economics, etc. with strong computational skills and an interest in applying data science to health outcomes. Applicants must demonstrate through their applications that they are proficient in advanced analytics skills and technologies based on their work experience and academic training. Applicants will need to indicate if they have proficiency in data science skills/tools such as the following: application software packages and libraries, database software, programming languages, and techniques such as data visualization, deep learning, machine learning, and statistical programming. Applicants that do not have such qualifications will not be eligible. They are instead encouraged to apply for a general internship through the Internship Challenge. MLSC reimburses employers up to \$20 per hour for interns that are pursuing or have completed their Bachelor's degree, \$25 per hour for interns that have completed their Master's degree, or are enrolled in a Ph.D. program, and \$30 per hour for interns that have completed their Ph.D. There is no application deadline since placements are rolling, though funding is only available to employers on a first-come first-served basis. All applications for this round will expire when the round closes.

2026-27 Internship Challenge (College Students)

*This application is for internships taking place during the period **May 1, 2026 - April 30, 2027.***

This program connects employers with college students and recent graduates considering career opportunities in the life sciences and enables small companies (100 or fewer employees in MA) and research institutions to hire paid interns by reimbursing them for stipends of up to \$9,600 per intern (based on \$20/hour for 12 weeks). Employers review applications on a rolling basis throughout the year and contact applicants directly about potential internship opportunities. There is no application deadline since placements are rolling, though funding is only available to employers on a first-come first-served basis. Your application will automatically be "hidden" (status = Inactive) from the database if not updated within six months from the date it was submitted or last updated. All applications for this round will expire at the end of the Program Year.

2026-27 High School Apprenticeship Challenge

*This application is for internships taking place during the period **May 1, 2026 - April 30, 2027.***

This program funds paid internship opportunities for low-income public high school students. Applicants must be high school students/graduates that are at least 16 years old. Recent graduates (not enrolled in college) that received their high school diploma/GED within the past two calendar years are also eligible. Applicants must be enrolled in or recently graduated from a school that meets at least one of the following descriptions: a) vocational technical high school, b) public high school (including charter) located in a "Gateway City", c) public high school (including charter) with a student population of at least 25% classified as "low income" by MA DESE, d) tuition-free private school, e) METCO program. The MLSC reimburses eligible host organizations up to \$4,080 per intern, based on \$17 per hour for six weeks of full-time work. There is no application deadline since placements are rolling, though funding is only available to employers on a first-come first-served basis. All applications for this round will expire at the end of the Program Year.
